Forecast for Saturday 31 Oct 2020

Weather: Rain, heavy at times this morning, lasting through until after midday. Then becoming drier with cloud lifting and even breaking at times to bring some late bright or clear intervals but still a fair amount of cloud and this will bring a few passing showers.

Chance of cloud free mountain/hill tops above 600m: Little chance in the morning and until early afternoon with widespread cloud at 450-600m, some lower patches over southwestern exposures, and limited gaps in the lower cloud in shelter northeast of the main hills. Then chances improving to 80% during the late afternoon and evening as the cloud lifts and breaks with perhaps the odd summit patch left over.

Visibility: Poor in heavy rain and mist then improving late in the day.

Meteorologist's View

A poor couple of days to come with rivers in spate and some flooding affecting access roads and car parks.

Recent rainfall: measured at Cat & Fiddle: altitude 511m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Sat 31 Oct 2020	1.2mm	4.6mm	4.6mm

Forecast for Sunday 01 Nov 2020

Weather: Further rain returning overnight and to start the day on Sunday, then a drier spell around the middle of the day. However more cloud and rain will return later in the afternoon, with uncertain timing, and this may arrive suddenly.

Maximum wind: South becoming southwesterly 25-35mph gusts 40-50.

Chance of cloud free mountain/hill tops above 600m: Little chance at first and again later but 70% from mid morning to early afternoon.

Visibility: Poor early and late, but improving good in the drier interlude around the middle of the day.

Temperature: **Valleys:** Plus 9 Celsius in early hours rising to Plus 12 in the afternoon and falling little in the evening.
At 600m: Plus 4 Celsius in early hours rising to Plus 7 during the day and rising a little in the evening.
Freezing level: Above the summits.
